

LNN Submission Guidelines

General Guidelines

10 seconds of pre/post roll per submission. This is allowing ten seconds of recording to elapse before and after your desired program begins and concludes to insure that Channel 4 is able to broadcast it in its entirety.

If possible during shooting, a tripod is recommended for stable shots.

Please double check your submission before submitting it to Channel 4. Please makes it meets your standards as well as the guidelines which we have laid out here.

Submissions may be mailed or brought to 18123 Burnham Avenue, Lansing, Illinois, 60438

Mini DV/DVCAM

We recommend using a new tape, or a portion of a tape which has not been used before. This is to ensure tape quality. Recording over previously shot footage may degrade it enough that Channel 4 will not be able to air that portion or the show in its entirety.

Your submission must be in SP format. LP will not be accepted.

VHS/VHS-C

We recommend using a new tape, or a portion of a tape which has not been used before. This is to ensure tape quality. Recording over previously shot footage may degrade it enough that Channel 4 will not be able to air that portion or the show in its entirety.

Your submission must be in SP format. LP and EP will not be accepted.

DVD

Please submit on DVD-R or DVD+R discs.

Quicktime

Please submit on DVD-R or DVD+R discs.
